

## CITY OF SEATAC STORMWATER MANAGEMENT PROGRAM

The City of SeaTac is actively implementing a Storm Water Management Program for our community and we need your help.

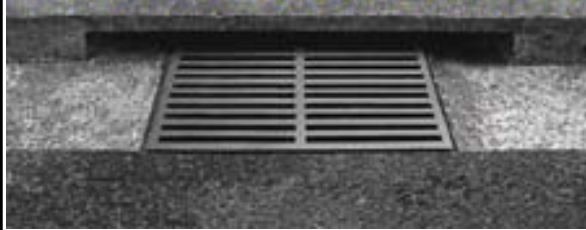

Stormwater can pick up pollutants such as oil and grease, chemicals, metals, and bacteria and flow directly to our lakes, streams, rivers or wetlands.

Working together we can make a difference and reduce the amount of pollutants entering our waterways as a result of runoff from residential, commercial and industrial areas.

Please call Desmond to get involved!  
206-973-4724

THE DRAIN IS JUST FOR RAIN

### AUTO CARE

#### **Wash your car on a grassy area**

- ◆ Mud, oil, grease & metal washed from your car are poisonous to waterways.
- ◆ Phosphates in soap lead to algae growth. Algae smells bad and harms sea creatures and water quality.
- ◆ Repair leaks and dispose of used auto fluids at recycle locations.

### LAWN CARE

#### **Use pesticides and fertilizer sparingly**

- ◆ Sweep fertilizer off sidewalks onto the grass and do not sweep it into storm drains.
- ◆ Store fertilizer in a covered area, off the ground, to prevent contact with water.
- ◆ Don't apply fertilizer before rain is forecast.

#### **Even natural things like leaves are a major stormwater pollutant.**

- ◆ Sweep up leaves from your driveway and out of the street gutters.
- ◆ Place leaves in garden compost.

### PET WASTE

#### **Pick up pet waste**

- ◆ Pet waste is a source of bacteria and E. coli in our waterways.
- ◆ Dispose of it in the trash or flush in the toilet.
